our services

- ▶ Formation of New Structures
- ▶ Structural strengthening work
- ▶ Plumbing & Fabrication works
- ▶ All kind of waterproofing work
- ▶ Replastering & Civil work
- ▶ Painting & Coating

1 Formation of New Structures

Re**builtech** do preparation for, and construction of, entirely new structures and/or significant extensions to existing structures whether or not the site was previously occupied. We make sure you get to live in a pristine, untouched home where you can customize finishes for a look you love. You won't have to worry about making upgrades for years to come.

Process we follow for New Construction:

1. Prepare Construction Site and Pour Foundation
2. Complete Rough Framing
3. Complete Rough Plumbing, Electrical HVAC.
4. Install Insulation.
5. Complete Drywall and Interior Fixtures, Start Exterior Finishes.
6. Finish Interior Trim, Install Exterior Walkways and Driveway.

2 Structural strengthening work

Structural engineering is a field of engineering dealing with the analysis and design of structures that support or resist loads.

This work explain the Inspection, Detection, Diagnosis such as coloumns, Beams, Slab, etc. and Repair of all types of structural defects on residential and commercial buildings and will answer most homeowner concerns.

This service include

1. Repairs & Rehabilitation of Damaged Structures
2. Corrosion Control

3 Plumbing services

Plumbing services is the whole system of piping, fixtures, applications for providing water supply or drainage to the buildings with the use of pipes, control valves, pipe layouts, storage tanks, etc.

4 All kind of waterproofing work

Waterproofing is the process of making an object or structure waterproof or water-resistant so that it remains relatively unaffected by water or resisting the ingress of water under specified conditions.

5 Replastering & Civil work

Civil engineering is professional engineering discipline that deals with Design, construction & maintenance of the physical and naturally built environment including works like roads, bridges, canals, dams, and buildings.

6 Painting & Coating

Commercial paint coatings are commonly applied to metal and concrete structures that need paint protection against mechanical, chemical and environmental degradation.
